

June 29, 2012

Greetings Army Nursing Team,

Congratulations on the 95<sup>th</sup> Anniversary of the U.S. Army Medical Service Corps.

Since 1917, starting with the World War I Sanitary Corps, the healthcare professionals of the Medical Service Corps have demonstrated a strong commitment to caring for America's Sons and Daughters. They have unselfishly come to the aid of victims of war, disaster, and disease around the world. They represent the growth in medical science and military medical operations and administration over two centuries. Today, MSCs provide the administration, planning, programming and budgeting of every Army Medical Department effort.

Best wishes and congratulations to the entire U.S. Army Medical Service Corps as you celebrate 95 years of service to our great nation. It is indeed a privilege to serve alongside you.

Serving to heal; Honored to serve!

Sincerely,

Jimmie O. Keenan  
Major General, US Army  
Commanding
